Patients often visit chiropractors to reach one of two objectives concerning their healthcare. Some patients seek symptomatic relief of their pain or discomfort, also known as **“relief care”**. Others are interested in discovering the cause of their problem and set goals towards correcting and relieving their problem, known as **“corrective care”**.

RELIEF CARE

Relief care gets rid if symptoms or pain, but not the cause of it. The initial problem is likely to return.

CORRECTIVE CARE

Corrective care differs from relief care in that the goal is to get rid of symptoms AND correct the cause of the problem

Please check your desired type of care: Relief Care Corrective Care Not Certain

TERMS OF ACCEPTANCE FOR CHIROPRACTIC HEALTH CARE

When a patient seeks health care and we accept a patient for such care, it is essential for both to be working toward the same objective.

Chiropractic has only one goal: to eliminate misalignments within the spinal column which interfere with the expression of the body's innate wisdom. It is important that each patient understand both the objective and the method that will be used to attain our goal. This will prevent any confusion or disappointment.

Adjustment: the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is specific adjustments of the spine. Health: a state of optimal physical, mental, and social well-being, not merely the absence of disease or infirmity.

Vertebral Subluxation: a misalignment of one or more of the 24 vertebrae in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's ability to express its maximum health potential.

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of chiropractic spinal examination we encounter non-chiropractic or unusual findings, we advise you. If you desire advice, diagnosis, or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area.

Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed others. OUR ONLY PRACTICE OBJECTIVE is to eliminate major interference to the expression of the body's wisdom. Our only method is specific adjusting to correct vertebral subluxations.

I _____ have read and fully understand the above statement.
(print name)

All questions regarding the doctor's objective pertaining to my care in this office have been answered to my complete satisfaction.

I, therefore, accept chiropractic care on this basis.
